Document – a pleading, plea, motion, application, request, exhibit, brief, memorandum of law, order, or other instrument in electronic form.

Document Access System – the statewide electronic court record system provided by the Office of Court Administration (currently Re:SearchTX).

Lead Document – a document as defined by Rule 21 (a) of the Texas Rules of Civil Procedure. If filing a single document, it is the lead document.

NARA - National Archives and Records Administration

NIEM – National Information Exchange Model – a partnership of the U.S. Department of Justice, the U.S. Department of Homeland Security, and the U.S. Department of Health and Human Services designed to develop, disseminate and support enterprise-wide information exchange standards and processes that can enable jurisdictions to effectively share critical information in emergency situations, as well as support the day-to-day operations of agencies throughout the nation. NIEM was adopted formally by JCIT and is promulgated in data exchanges in Texas Administrative Code, Title 1, Part 8, Chapter 177.

Electronic Court Filing (ECF) standards – a set of non-proprietary extensible markup language (XML) and Web services specifications, along with clarifying explanations and amendments to those specifications that have been added for the purpose of promoting interoperability among electronic court filing vendors and systems.

OCA – Office of Court Administration

OCR – Optical Character Recognition

PDF – Portable Document Format – for the purpose of these standards this is PDF 1.4 (ISO 19005-1:2005 – Revised as ISP/NP 19005-1). This standard specifies how to use PDF for long-term preservation of electronic documents and is applicable to documents containing combinations of character, raster and vector data.

PDF Distiller – a program or application that converts files into PDF files so that the printed appearance of a document is preserved regardless of the application used to create it. This functionality is commonly seen as "Print to PDF", "Save to PDF" or "Export to PDF". **PDF Software** – software that conforms to International Organization for Standardization (ISO) 32000-1:2008. This standard specifies standards for creating (writing), reading, displaying and interacting with PDF documents.

2 SYSTEM DATA EXCHANGE STANDARDS

In accordance with Texas Administrative Code, Title 1, Part 8, Chapter 177, information exchanges that occur between the various systems (electronic filing manager, case management, document management, etc.) should occur using the current OASIS LegalXML specifications. The OASIS LegalXML specification is a subset to NIEM.

3 DIGITAL MEDIA STANDARDS

In addition to content and formatting promulgated by the Texas Rules of Civil Procedure, Texas Code of Criminal Procedure, and Texas Rules of Appellate Procedure, the following standards apply to digital media filed electronically or scanned from source records (filed after the effective date of these standards) by the clerk.

3.1 DOCUMENTS

- A. An e-filed document must be in text-searchable PDF, using fonts specified in the PDF specification, on 8.5x11 page size, with the content appropriately rotated.
- B. When possible, the document should be generated directly from the originating software using a PDF distiller.
- C. Prior to being filed electronically, a scanned document must have a resolution of 300 DPI. Preferably, scanned documents should be made searchable using OCR technology.
- D. An e-filed document may not contain any security or feature restrictions including password protection or encryption and may not contain embedded multi-media video, audio, or programming.
- E. Documents may not contain package PDF's. PDF's should not be embedded inside of another PDF. Documents may not contain embedded fonts. Each document must be a single PDF. An appellate court may require that multiple PDF documents be combined into a single PDF document and bookmarks used to separate content appropriately. The content of the document should not depend on bookmarks.
- F. Any e-filed document filename should contain only alphanumeric characters that are part of the Latin1_General character set. No special characters are allowed and the length of the filename should be restricted to 50 characters.

3.2 AUDIO/VIDEO

A. The following media players are supported (specific audio/video formats can be found on each media player's website):

a. VLC media player (VideoLAN Organization) b.Windows media player (Microsoft)

- B. When an audio/video file is natively supported by at least one media player listed in these standards, the file must not be converted into another format.
- C. If an audio/video file is not natively supported by at least one media player listed in these standards, the file must be converted to another format supported by at least one media player listed. The original, any hardware requirements, and software needed to view/hear

the original must be submitted as well.

D. If modifications are needed to enhance the native audio/video, a copy of the original must be made. The modified copy (submitted in addition to the original audio/video) must also be generated in a format supported by at least one media player listed in these standards.

4 EFILING FILING CONFIGURATIONS

Below are the standard filing configurations to be used in the eFiling system for district, county court at law, probate, constitutional county, and justice of the peace courts. This list of filing configurations must be accepted in each court. Courts and clerks may not add to this configuration but may eliminate codes if not needed in a particular jurisdiction.

It is important to note that these standards only apply to the electronic filing system which is a delivery system and are NOT standards for a county case management or document management system.

⁴ In some counties, clerks use additional services to route money to the appropriate general ledger accounts. In these cases, clerks can use "Z-(County Use Only) – Service – Constable" additional services to route to the appropriate account. In these cases, the services listed should be associated with an existing "Service – Constable" type of additional service that the filer would normally use.

5 DOCUMENT ACCESS CONFIGURATIONS

Below are the configurations to be used in the document access system provided by OCA for district, county court at law, probate, and constitutional county courts.

It is important to note that these standards only apply to the electronic document access system which is a delivery system and are NOT standards for a county case management or document management system.

5.1 Role Definitions

The following roles are defined for the electronic document access system:

Role 1 — Judge. "Judge" means any sitting judge on the Supreme Court, the Court of Criminal Appeals, the intermediate Courts of Appeals, the District Courts, the County Courts, and the County Courts at Law, together with associate judges and designated court staff. Justice court judges and municipal court judges are not included at this time.

Role 2 — **Attorney on the Case, Visiting Judge.** "Attorney on the Case" means an attorney licensed in Texas who has made an appearance in the case. "Visiting Judge" means a qualified judge assigned to a specific case or docket for a temporary period.

Role 3 — **Clerk.** "Clerk" means the custodian of the official record, including district and county clerks and deputy clerks and staff necessary for the performance of the clerk's duties.

Role 4 – Licensed Attorney. A Licensed Attorney is an attorney licensed by the State of Texas that does not fall into Role 1 (Judge), Role 2 (Attorney on the Case, Visiting Judge), or Role 3 (Clerk).

Role 5 – Registered User. A Registered User is a user that does not fall into Role 1 (Judge), Role 2 (Attorney on the Case, Visiting Judge), Role 3 (Clerk), Role 4 (Licensed Attorney) and registers with the Document Access System.

5.2 ROLE PERMISSIONS

The roles defined in Section 5.1 above are given the following permission:

Role 1 – Judges - A Judge may access all case index information and all electronically filed documents in any case in any court.

Role 2 – Attorney on the Case, Visiting Judge. An Attorney on the Case may access case index information and all electronically filed documents for any case in which he or she is attorney of record or has made an appearance in the case. A Visiting Judge may access case index information and all electronically filed documents in a case to which he or she is assigned.

Role 3 – Clerk. For purposes of the Document Access System, a Clerk has the same permission level as a Judge for cases filed in the district or county. A Clerk may access case

index information and all electronically filed documents for any case in the district or county. Additionally, Clerks will have access to reports and other system features that will allow them to configure systems and to provide them with additional information concerning their offices.

Role 4 – Licensed Attorney. Licensed Attorneys can access case index information and all publicly available electronically filed documents relating to any case in which they may have an interest. This would exclude cases and documents that are restricted by Court Order, Rule or Statute including documents containing un-redacted sensitive data ("Restricted Documents").

Role 5 – Registered Users. Registered Users can access case index information and publicly available electronically filed documents in accordance with the Section 5.3. Additionally, Registered User access does not include cases and documents that are restricted by Court Order, Rule and Statute including unredacted documents marked as containing Sensitive Data (collectively referred to as "Restricted Documents").

5.3 REGISTERED USER MATRIX

The permissions outlined below mirror the eFiling Case Categories and Case Types found in eFiling and apply only to Registered Users (Role 5) of the system.

Index Info – an X indicates that for this case type, case index information is shown. "Restyle" indicates that the case style should be changed to protect the identities of minors.

Images – an X indicates that document images are available for this case type.

Delay – indicates the number of days delay before the case information and/or documents may be accessed by registered users.
